

**Thank you for your purchase of the German Circular Sprinkler. To get started, attach the sprinkler head to the base. Be careful not to overtighten as this can cause breakage. For best results, please review these helpful tips.**

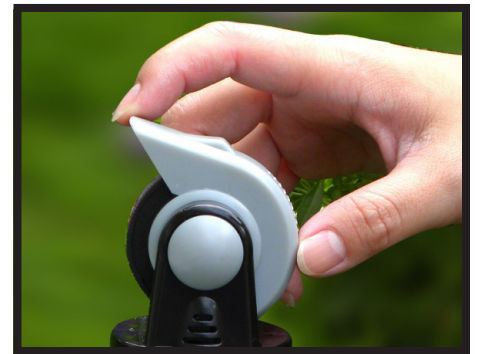

**Spray Pattern Adjustment**  
Move the dial up and down.

**Watering Width Adjustment**  
When the red lever is down (shown above) you can adjust the watering width by moving the dial left and right.

To allow the sprinkler to rotate 360° push red lever all the way up.

**Throw Distance Adjustment**  
Rotate the head up and down.
