

How to hookup your hose reel:

Item 44A01.03

1. Follow the directions (found inside the box) to assemble and mount the hose reel. Mount it within 5 feet of the faucet – this is the length of the connector hose.
2. Screw the quick connect “part A” to your water supply faucet.
3. Attach one end of the connector hose to the quick connect “part A” and the other end to the hose reel’s outside connector.
4. Screw the quick connect part “B” to your garden hose.
5. Attach the garden hose to the hose reel’s inside connector.
6. Neatly wind the hose unto the reel.
